Document Status Sheet

Document Control Number:	PKT-SP-MIB-EXMTA1.5-I01-050128			
Document Title:	MTA Extension MIB			
Revision History:	D01 – Released September 30, 2004			
	I01 – Released January 28, 2005			
Date:	January 28, 2005			
Status:	~~Work in Progress~~	Draft	Issued	~~Closed~~
Distribution Restrictions:	~~Author Only~~	CL/Member	~~CL/ Member/ Vendor~~	Public

Key to Document Status Codes:

Work in Progress	An incomplete document, designed to guide discussion and generate feedback, that may include several alternative requirements for consideration.
Draft	A document in specification format considered largely complete, but lacking review by Members and vendors. Drafts are susceptible to substantial change during the review process.
Issued	A stable document, which has undergone rigorous member and vendor review and is suitable for product design and development, cross-vendor interoperability, and for certification testing.
Closed	A static document, reviewed, tested, validated, and closed to further engineering change requests to the specification through CableLabs.

Contents

This page left blank intentionally.

1 SCOPE

1.1 Purpose of the Document

New objects that are being introduced beyond PacketCable 1.0 for MTA MIBS are being grouped in this document so that the additional changes made can be tracked easily.

1.2 Requirements

Throughout this document, the words that are used to define the significance of particular requirements are capitalized. These words are:

"MUST"	This word or the adjective "REQUIRED" means that the item is an absolute requirement of this specification.
"MUST NOT"	This phrase means that the item is an absolute prohibition of this specification.
"SHOULD"	This word or the adjective "RECOMMENDED" means that there may exist valid reasons in particular circumstances to ignore this item, but the full implications should be understood and the case carefully weighed before choosing a different course.
"SHOULD NOT"	This phrase means that there may exist valid reasons in particular circumstances when the listed behavior is acceptable or even useful, but the full implications should be understood and the case carefully weighed before implementing any behavior described with this label.
"MAY"	This word or the adjective "OPTIONAL" means that this item is truly optional. One vendor may choose to include the item because a particular marketplace requires it or because it enhances the product, for example; another vendor may omit the same item.

2 REFERENCES

2.1 Normative References

In order to claim compliance with this specification, it is necessary to conform to the following standards and other works as indicated, in addition to the other requirements of this specification. Notwithstanding, intellectual property rights may be required to use or implement such normative references.

Appendix A Acknowledgements

On behalf of CableLabs and its participating member companies, we would like to extend our thanks to all those who contributed to the development of this specification. Certainly all the participants of the provisioning focus team have added value to this effort by participating in the review and weekly conference calls. Particular thanks are given to:

Rodney Osborne (Arris Interactive)
Eugene Nechamkin (Broadcom Corp.)
Satish Kumar (Texas Instruments)
Kevin Marez (Motorola, Inc.)

Jean-Francois Mule, Sumanth Channabasappa, Venkatesh Sunkad (CableLabs, Inc.)
